All canned food in this section are made from young grains, pods and cobs. They have a sweet and delicate taste, ideal for salads, soups or side dishes. Canned food with a mild natural taste, in which all shades of high-quality, optimally ripe fruits are manifested in the best possible way.

The consistency of the grains is homogeneous and elastic, without excessive density, while they are not boiled, which indicates both the high quality of the raw materials used and the careful observance of the cooking technology.
